

Rural Health Research Gateway

ruralhealthresearch.org

The Rural Health Research Gateway is an online library of research and expertise. The website is free to use, searchable, and provides access to the work of the Rural Health Research Centers and Analysis Initiatives funded by the Federal Office of Rural Health Policy.

The Rural Health Research Center program is the only federal program that is dedicated entirely to producing policy-relevant research on healthcare in rural areas. The Centers' research findings inform a wide audience of national, state, and local decision-makers concerned with rural health.

This online resource of research connects you to

- Rural Health Research Centers
- Policy briefs
- Journal articles
- Research projects
- Email alerts
