

Rural Health Research Gateway

ruralhealthresearch.org

The Rural Health Research Gateway is an online library of research and expertise. It's free to use, searchable, and provides access to the work of all eleven federally-funded Rural Health Research Centers and Analysis Initiatives. And the best part is, anyone can use it.

The Rural Health Research Center (RHRC) is the only Federal program that is dedicated entirely to producing policy-relevant research on health care in rural areas. The Centers study critical issues facing rural communities in a quest to secure adequate, affordable, high-quality health services for rural residents.

This online resource of research connects you to:
